PROFESSIONAL SUMMARY

Integrated M.Tech Computer Science Engineering (AI/ML) student at VIT-AP University with hands-on experience building full-stack web applications and computer vision systems using Python, Flask, OpenCV, and TensorFlow. Actively pursuing AI/ML and full-stack internships, strong foundation in data structures, algorithms, and database.

EDUCATION

Vellore Institute of Technology, Andhra Pradesh

2022 – 2027

Dual Degree (B.Tech + M.Tech) in Computer Science and Engineering, GPA: 7.68

PROJECTS

SkyWrite – Touchless Drawing Interface / *Python, OpenCV, Mediapipe, TensorFlow, CNN*

- Developed a real-time touchless drawing interface using OpenCV and Mediapipe for high-fidelity, 21-point hand-gesture tracking.
- Integrated a Convolutional Neural Network (CNN) trained on the EMNIST dataset to recognize and digitize hand-drawn characters with ~87% accuracy.
- Optimized recognition precision through a custom pre-processing pipeline and implemented line-smoothing algorithms to eliminate hand jitter.

Fabric Marketplace with AI-Based Fabric Defect Detection / *Flask, TensorFlow, OpenCV, MySQL*

- Developed a Flask-based web application supporting Admin, Seller, and Buyer roles.
- Integrated a CNN model using TensorFlow, achieving 94% accuracy in automated fabric defect detection.
- Applied OpenCV for image preprocessing, resizing, normalization, and feature extraction.
- Designed and managed a MySQL relational database for user authentication and product management, and implemented secure authentication, CRUD operations, and end-to-end marketplace workflows for buyers and sellers.

Python-based Projects / *Python libraries*

- Built a Pomodoro App, a local Password Manager, automation tools for Tinder and LinkedIn, and games including Snake, Hangman, and Pong.

TECHNICAL SKILLS

Programming Languages: Java, C, Python (NumPy, Pandas, Scikit-learn, Matplotlib)

Web Technologies: HTML, CSS, JS, NodeJS, Flask, MySQL, ReactJS

Tools & Platforms: MATLAB, Git, Windows, Linux

RELEVANT COURSES

Database Systems, Computer Networks, Operating Systems, Computer Architecture, Graph Theory, Machine Learning Specialization, Data Structures and Algorithms, Design and Analysis of Algorithms.

CERTIFICATIONS

- Career Essentials in Generative AI by Microsoft and LinkedIn – LinkedIn Learning & Microsoft
- Hugging Face Agents Course – Certificate of Excellence, Hugging Face
- Oracle Cloud Infrastructure 2025 Certified AI Foundations Associate – Oracle University
- Google Gemini Academy 2025 – Certificate of Completion, Google

KEY STRENGTHS

- Strong problem-solving and analytical skills.
- Hands-on experience developing full-stack and machine learning applications.
- Quick learner with strong interest in Software Development and Java technologies.
- Excellent teamwork, communication, and debugging skills.
